

SIGN MAKER/FABRICATOR

Salary Negotiable + Overtime.

SIGN MAKER / FABRICATOR

Job Description

NES is one of the UKs leading manufacturers of retail and graphics displays, signage schemes, LED lighting and light walls, architectural facades, rainscreen cladding & architectural graphic features. Based in Colchester and working from our 100,000 sq ft facility we have worked on prestigious architectural and display projects both in the UK and Europe.

Due to expansion we are now recruiting for a Sign Maker/Fabricator to be based in our workshop. The role encompasses fabrication of signs and displays from aluminium, acrylics, PVC foamex, plastics, metals and also using lighting components. This role covers a wide variety of jobs all made to customer specifications. The applicant should be familiar with the machinery used in a fabrication workshop, and be able to demonstrate fabrication, assembly and finishing skills.

Essential Requirements

- Ability to read schematic drawings.
- Plastics and acrylics fabrication experience essential.
- Ability to follow verbal or written instructions.
- Power tool & bench top skills.
- Attention to detail is crucial.
- Experience of saws and hand power tools.

Desirable

- Skilled sheet metal worker experience desirable.
 - CNC router operation an advantage but not necessary.
 - Knowledge of sign and POS fabrication desirable.
 - Computer knowledge an advantage but not necessary.
-

If you feel you could contribute to the success of NES and enjoy a challenge, please send your CV and a covering letter to Simon Barnetson.

NES, 15 Clough Road, Severalls Industrial Estate, Colchester, Essex, CO4 9QS
