

Recipient of numerous awards, Accord 15 remains one of the most innovative sign systems on the market. A comprehensive system, Accord 15 is ideal for virtually any signage application, from simple personnel signs to complex directionals and directories. The system is comprised of lightweight dimensional aluminium bands which snap onto injection moulded End Clips for smaller signs, or fastened into vertical aluminium tracks (Side Track configuration) for larger signs. The aluminium message bands are easy to remove using a special tool, making Accord 15 easy to maintain and update. Message bands also feature an Insert Slot option to house paper or DDA compliant messages.

Other Features & Benefits:

- Design flexibility
- Over 200 standard RAL or BS colours
- Available in a variety of profiles: -
Five Side Track Profiles
Four End Clip Profiles
- Easy installation
- Multiple mounting methods
- Environmentally friendly components
- SignWord Pro compatible
- Can accept DDA inserts

Applications:

- Room Identification
- Personnel Signs / Nameplates
- Directional / Directories

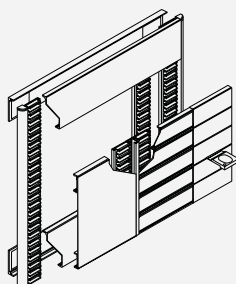

Ideal for:

Schools & Universities, Corporate / Office
Facilities, Hospitals, Banks

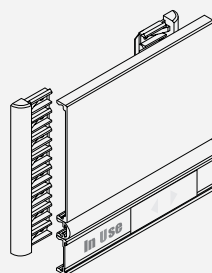

Worldwide patent protection.

A revolutionary new product from NES, FullView is a low profile graphic display system, representing the next level in sign systems which are compatible with digital printing output. Environmentally friendly, tamper resistant and economical, yet design flexible and comprehensive, FullView is without equal.

From point of purchase and merchandising displays to facility room identification, DDA signage, directional modules and more, FullView is the perfect choice.

The system is 100% modular and updatable. Inserts are protected by a non-glare acrylic lens and are changed by removing a unique, concealed Locking Pin using a special Magnet and Suction Cup Tool provided by NES. When inserts are changed frequently, a Top Access Assembly option makes the process fast and easy.

FullView itself is available in a wide range of sizes and colours to suit virtually every environment or, may be used in conjunction with NES' comprehensive Accord 15 sign system, truly making a Total System Solution.

Features and Benefits:

- Low Profile, a sleek 10.67mm depth
- Virtually tamper proof - via concealed locking pin
- Four edge shapes: Radius, Square, Contour & Bevel
- Modular, completely updateable
- Multiple mounting methods
- Environmentally friendly - recyclable aluminium components and paper inserts.
- DDA Compliant
- Aesthetically compatible with APCO's Accord 15 System

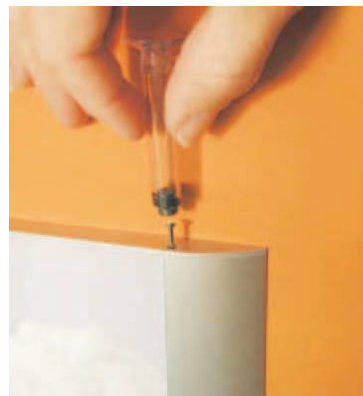

Ideal For:

Hospitals / Medical Centres, Laboratories, Banks, Schools / Universities, Retail Shops and Centres

European Patent (UK) No. 1,467,337

1. FullView System with Clear Cover, Locking Pin, and Removal Tool.
